COMMITTEE MEETS TOMORROW NIGHT

Sun's Exclusive Forecast of I emocratic Action

Chairman Berry Issues Official Call to Consider Time for City Primary.

THOMAS HARRISON FOR MAYOR

In accordance with the exclusive announcement in THE SUN that the Democratic committee would meet this week, W. A. Berry, chairman of the city Democratic committee, has issued a call for a meeting of the committee tomorrow night at 7:30 o'clock at the city hall for the purpose of naming a date for a primary and arranging details. Candidates are numerous and it is the general idea that a primary will be called on the first Thursday in May. This will give candidates plenty of time to make a canvas.

Candidate for Mayor, With the announcement of City Attorney Thomas Harrison's candidacy for the Democratic nomination for mayor, the municipal campaign, which will end with the general election next fall, has fairly started. So far Mr. Harrison is the only avowed

Although he has just formally announced, it has been known for months that Mr. Harrison would be a candidate, so she has had a good start, secured many pledges to himself and perfected a personal organization that will be hard to beat.

Mr. Harrison is perhaps the youngest man who has ever run for mayor of the city, but his association with public, and especially local, affairs, has been so long and continuous that he is perhaps as well posted on the needs of the municipality as any man the Democrats could present.

It is understood that the city Democratic primary will be in May, and Mr. Harrison is working to have his

vote lined up by that time

Otners may Enter. Col. Charles Reed said this morning that he had not decided definitely whether he will run for the Democratic nomination for mayor, but that he would express himself to his friends in a week or ten days. It is stated from an authentic source that Col. Reed will be a candidate in the

Attorney W. V. Eaton has not made up his mind in the race for representative from McCracken county. Eugene Graves has stated positively that he will not be a candidate and J. W. Skelton is the only active candidate.

Popular Henry Bailey, the present city clerk, will have no opposition for the nomination.

Col. Sutherland's Ambition. Col. Dick Sutherland, the popular fire and police commissioenr, may announce himself a candidate for the Democratic nomination for city as-

"My friends have been urging me to run, and I am considering," he stated. "I have a great many friends who I feel will work for me, and will definitely make up my mind in a few

Dies in Agony in Presence of Members of Immediate Family

WAS WRITHING ON THE FLOOR

Sending his wife to his brother's esidence to summon a physician, Thomas Chambers, known among his ssociates as "Tot" Chambers, cut his throat from ear to ear with a razor this morning at 9 o'clock and died a few minutes later in the presence of his aged father, his wife and brothers. No note was left giving reasons for the suicide, and it is presumed that Chambers was mentally unbalanced.

Chambers resided on his father's farm back of Olivet church on the Cairo road, four miles from the city limits. He had been ill several days of the grip, but today was able to be up. This morning shortly after breakfast he complained of aching pains and requested his wife to go to his brother's, Jack Chambers, and summon a physician, She left her husband and nine-months-old son in the same room, visited the brother s orrible to depict.

We Use the King of All Bosom Ironers .--- Why?

First-Because it irons smoothly, not rough.

Second-The button holes or stud holes match. Third-Negligee shirts with buttons are ironed perfectly

and without injury. Fourth-It irons either stiff or plaited bosoms like new, and the "hump" so often seen is missing.

No other like it in West Kentucky. Satisfy yourself by sending us your laundry.

LAND QUESTION IS TEXT OF MESSAGE

President Urges Congress to Reform Measures

Conservation of Coal and Mineral Rights in Public Domain Is

'urgent need of legislation affecting the different phases of the public and situation in the United States' was emphasized by President Roose velt in a long message submitted to

In his message the president advocates the conservation of coal and longing to the government, saying that henceforth the mation should retain its title to its fuel resources, arges government control of the wes tern public land pastures, and asks for an appropriation of half a million dollars, immediately available. In addition to present estimates, to aid in detecting and preventing land frauds. He contends for a system of ands anw for treating these fuel ands as public utilities.

Other Nations Lease Lands.

Concerning the leasing of mineral ands by the government the president points out it is not an untried policy. It has been in force in Australia for 15 years, and is now in force in all coal producing countries in Europe and in Canada, India and all the British colonies.

"Mineral fuels, like the forests and navigable streams," the message says, "should be treated as public of utilities. This is generally recognize

What Osteopathy Will Do. There are but few people who have not heard of Osteopathy, also of some of its achievements. But there are far too many who have accredited it with being good for only those conditions from which they have been cured, or which have come under their observation. Not infrequently there is mutual surprise when one who was cured of rheumatism meets another who has been cured of asthma or constipation. This is a homely, but very true illustration.

Personally, I have cured chronic cases of constipation, rheumatism asthma, nervousness, neuralgia and headaches for people whom you know well, and the value of the Osteopathic treatment is but coming generally known in Paducah, as it should be.

I should like to talk with you at any time about your particular case, and know I can cite you to some of your friends who will attest to what the treatment has done for them in similar diseases. Come to my office, 516 Broadway, or phone 1407 any time from 9 to 12 or 2 to 5 p. m. DR. G. B. FROAGE.

THE REMEDY WHICH CURES CA-TARRH BY PURIFYING THE BLOOD AND KILLING THE GERMS.

If you have Catarrh take B. B. B.; it will drive out every bit of Catarrhal Polson out of the system.

Don't neglect Catarrh! Don't let it make you into a worn-out, run-down Catarrhal wreck.

Remember Catarrh is more than a triffing allment—more than a disgusting trouble. It's a dangerous one. Unchecked, Catarrh too frequently destroys smell, taste and hearing, and often opens the way to Consumption. Be warned in time. If you have Catarrh, start to cure it NOW by taking B. B. B. It cures through the blood by purifying it and building up the broken down tissues.

Don't think it can't be cured because you've tried to cure it and failed, as B. B. cures where other remedies [41].

CHAPTER XII. the night of Chilcote's return to his own Loder tasted ne had been, if not content, at least pathetic; but with action the apathy and been dispersed, never again to regain its old position

He realized with bitter certainty that his was no real home coming. On entering Chilcote's house he had experienced none of the unfamiliarity, one of the unsettled awkwardness, that assailed him now. There he had almost seemed the exile returning after many hardships; here, in the atmosphere made common by years, he felt an alien. It was illustrative of the man's character that sentimentalities found no place in his nature. Sentiments were not lacking, though they lay out of sight, but sentimentalities

Left alone in the sitting room after Chilcote's departure, his first sensation was one of physical discomfort and unfamiliarity. His own clothes, with their worn looseness, brought no sense of friendliness such as some men find

ever become intimately close. He had used the place for years, but he had used it as he might use a hotel, and whatever of his household gods had come with him remained, like himself, on sufferance. His entrance into Chilote's surroundings had been altogether different. Unknown to himself, he had been in the position of a young artist who, having roughly modeled in clay, is brought into the studio of a sculptor. To his outward vision everything is new, but his inner sight leaps to instant understanding. Amid all the strangeness he recognizes the ne essential-the workshop, the atmos-
